How to Add an Airtag

1. What are Airtags and when should they be used?

2. Airtags are small devices to track their location and to follow shipments

3. They can also help to locate them if they are displaced or unauthorized removed.

4. They can be bought online or at Lohff & Pfeiffer USA

5. **Lohff & Pfeiffer** includes it in many shipments for security reasons.

6. The airtag can either be returned to **Lohff & Pfeiffer** and you will receive a refund or you may keep it and connect it to your **Find your Phone app**.

Connect the airtag to your Find my Phone App

When you receive a shipment from Lohff & Pfeiffer with an Airtag, you may either return it and receive a refund or keep it and connect it to your find my phone app.

Inform Lohff & Pfeiffer that you like to take over the Airtag and they will remove it from their system.

Remove the battery by pressing on the metal plate with your thumb and turn it against the clock. The lid will open and the battery can be reinstalled.

A tone should be audible when you install the battery

When the battery is going down, you will receive a message on your phone to replace the battery.

The battery is expected to last one year
